MISSION STATEMENT

41ST DISTRICT AGRICULTURAL ASSOCIATION

It is the mission of the Del Norte County Fairgrounds to serve the public as a place of celebration, tradition, learning, economic development, social well-being, civic responsibility, and community health in good times and in times of challenge. The Fairgrounds is where the community gathers to showcase the vibrant lifestyle talents of the people, of agriculture and of the community during the annual fair and throughout the year.

PRESIDENTS WELCOME

Experience Del Norte County at its best.... Stars, Stripes & Summer Nights!

On behalf of the Directors of the 7 members state appointed Fair Board along with the elected 5 members of the Del Norte County Parks and Recreation District working together, it is our pleasure to welcome everyone to the 2023 Del Norte County Fair. For 130 consecutive years the Del Norte County Fair has provided an opportunity for residents and visitors alike to join in making new acquaintances, visiting old friendships, and most importantly celebrating everything that is Del Norte County. All across the county, kids are tending to their young livestock, feeding, grooming, and training them for their moment in the show rings. Volunteer committees are meeting for the first time since last fall, planning exhibits, displays and competitions. The fairgrounds staff is fielding calls from vendors, carnival workers, performers, and contest entrants.

Those of us on the Fair Board watch all this activity with a sense of wonderment. It never ceases to amaze us to see our wonderful little Fair pull itself up by its bootstraps year after year. As Board Directors, we make sure the basic pieces are in place, but we know that ultimately it is you, the members of the Del Norte community, our big Fair family, who make the Fair happen every year. We are deeply grateful to all of you, especially in these times of difficult finances and uncertain futures for fairs all over the State of California.

Come early, come often, and stay late to join in the usual fun and excitement and hopefully a few new surprises, as we celebrate our own kind of family reunion. Dust off your boots, shine the buckle, and grab your hats! Come catch up with old friends and make some new ones, as we all forget our differences for a day or two, and remember that, in the end, we all share one thing in common: our love for the best little fair in California.

February 2, 2023

The 2023 Fair Season is just around the corner! This past year was one to reflect upon. As our state reopened after a two-year hiatus, the Network of California Fairs picked right back up and opened the doors of the fairgrounds to welcome local communities to celebrate. Of course, California fairgrounds never stopped serving their communities during the pandemic. In the face of uncertainty, they rose to the occasion and reinvented themselves in as many ways as needed to serve their communities in the best ways possible.

From serving as testing sites and hosting drive-through events during the pandemic, to serving as emergency centers and hosting in-person events, fairgrounds have proven their resiliency over and over again. Whether the community is facing good or difficult times, our fairgrounds are always available and eager to lend a hand. The relationships the fair industry builds within their communities through these experiences are beyond comparison!

The impact the annual fair event has on local communities cannot be stressed enough. Every year the annual fairs attract multitudes to the various fairgrounds throughout the state. For some, it is the carnival rides. For others, it is delicious fair food. And if you are reading this letter, it is probably for your interest in the fair's exhibits. Whatever your reason may be, it all derives from tradition and a peek into technology and innovations of the future, agricultural advocacy, and a sense of community that brings California together.

Fair exhibitors generously invest enormous amounts of time and effort into their projects to represent California's culture and agricultural bounty at its best. While your main goal as an exhibitor is to learn, compete, and celebrate your accomplishments, you are also contributing to teaching your community about an industry that is of paramount importance to our state and the world.

I appreciate all your hard work and commitment to the fair and to agriculture and look forward to what this year has to offer because of your involvement.

Yours truly,

A handwritten signature in blue ink that reads "Karen Ross".

Karen Ross, Secretary

OFFICE OF THE GOVERNOR
California Agriculture Fair Season

On behalf of the State of California, it is my pleasure to welcome you to the 2023 California Fair Season. California fairs have a very important role in their communities. Every year, millions of people gather at fairgrounds throughout California to celebrate time-honored traditions that reflect the diversity of our state.

Each fair takes great pride in showcasing their community through unique performances, events and exhibits.

Livestock and other competitive exhibits demonstrate integral parts of agriculture that provide a link between the public and California's farmers and ranchers. By displaying local crops, crafts and livestock, fairs educate the community about our state's agricultural sector.

Thank you for your participation and dedication to our state and the agricultural community.

Sincerely,

A handwritten signature in blue ink that reads "Gavin Newsom".

Gavin Newsom

2. **What is the Youth for The Quality Care of Animals Online Ethics Course All About?**

Youth for the Quality Care of Animals (YQCA) is a national multi-species quality assurance program for youth ages 8 to 21. YQCA is the result of a collaborative effort between states that have previously offered multi-species youth livestock quality assurance programs, the National Pork Board's Youth PQA Plus program and representatives from other national livestock groups. The program has been designed by extension specialists and national livestock program managers to ensure it is accurate, current, and relevant to the needs of the animal industry and shows and is appropriate for youth.

- The program is designed to provide an estimated 60 minutes of education each year. The online program requires the passing of a series of three quizzes to earn certification. YQCA is designed as an annual education and certification program focused on food safety, animal well-being and character awareness for youth ages 8 to 21 producing and/or showing pigs, beef cattle, dairy cattle, sheep, goats, market rabbits, and poultry.
- The online program includes three components for each topic (food safety, animal well-being, and character development), and are designed specifically for each age group:
- Knowledge builder - allows students to learn new information in an engaging, age-appropriate and interactive format. Students can read content, watch videos, analyze pictures, and practice skills while progressing through a series of interactive content components.
- Skills lab - Offers realistic situational opportunities for youth to apply the new knowledge gained in the knowledge builder. These labs take students through a comprehensive journey of the content, requiring them to apply skills and make decisions resembling those they will face in real life. To fulfill their year of training, youth will complete three of these online modules.
- Quiz for each content topic - The quiz is the final piece of the online learning experience, testing student's overall knowledge of the content. Students can receive immediate feedback or see their results at the conclusion of the quiz. A pass rate of 80% has been established with students being able to repeat the module if needed.

3. **Who must take the course?** All animal youth exhibitors ages 9-19 must take the online course and upload and print their certificate of completion when entering online. Upon completion, bring your printed copy to the fair office.

4. **How to register for the YQCA Ethics Course.** To register go to:

<https://yqcaprogram.org/> and create an account.

- a) A separate account is required for each Exhibitor. Siblings cannot take the course together as each will need an individual Certificate number for their Fair Entry. The course is \$12 per exhibitor.
- b) Clubs/projects may fundraise to cover the costs, as YQCA does offer coupon codes which are one-time use codes that cover the registration costs. More information on the coupon codes can be found here: <http://yqca.org/buy-coupons/>.

JUDGING SYSTEMS

American System

Exhibits in this system are compared against a standard of perfection, as well as against the other entries in the competition. All exhibits in a particular class are looked at and ranked with only one selected for first place, second place, third place, etc. Only First Place in Class exhibits qualify for Best of Division.

Danish System

In this system all Exhibitors receive a ribbon. All exhibits are grouped according to quality, and there may be multiple entries that get the same ranking and ribbon. Quality may vary from excellent to fair, and ribbon categories may be blue, red, white and/or yellow. In this system of judging, exhibits are not in competition with or compared to each other.

DANISH SYSTEM JUDGING SCALE

	QUALITY	SCORE	RIBBON
1st Group	Superior	92-100%	Blue
2nd Group	Good	82-91%	Red
3rd Group	Average, acceptable	70-81%	White
4th Group	Poor, undesirable	69% or below	None

JUDGES

To ensure impartiality, the Del Norte County Fair secures judges for most categories from outside the community. The dedication and effort of these judges is to be commended as their fees, while sufficient to cover travel costs, are inadequate compensation for the hours they give to our fair. A special "THANK YOU" to these judges who will be serving us this year.
